

# QHSE policy

Quality – Health - Safety - Environment

## QUALITY

In the context of improvements to management and maintenance of our equipment, at least 90% of our equipment is referenced in the CTP2 application.

## HEALTH & SAFETY

A reduction of the number of accidents linked to manual handling by 50%.

## NUCLEAR SAFETY

0 Significant safety events  
0 internal contaminations  
Individual dose constraint : 1mSv

## ENVIRONMENT

Reduce our carbon footprint to a minimum.

## QHSE TARGETS FOR 2022

### OUR COMMITMENT

CTP environment continues to strive to improve its performance in terms of Quality, coupled with protecting the Health & Safety of people and preserving the environment, these improvements since 2003. Our commitment translates into a desire to continuously improve the relevance of our QHSE system and, more specifically, to:

Guarantee the **optimum quality of our service** for clients.

Ensure compliance with **lead times**.

Seek to optimise **costs**.

Comply with **regulatory and other requirements** relating to health & safety.

Increase protection of the **lives and health of our personnel**.

Rely on the active **consultation and participation** of all our employees.

Ensure that **working conditions of all our employees** are improved.

Roll out a **culture of safety** for employees.

Respect the **integrity and correct operations of client's facilities** during our projects.

Reduce the **impact of our business on the environment**.

Comply with **regulatory and other requirements**.

Ensure that our **energy consumption** is reduced.

The improvement strategy we are pursuing must contribute, thanks to its effectiveness:

- to the company's economic performance and sustainability,
- to the company's identified QHSE risks control,
- to the fulfilment and development of our employees,
- to the increase of our customer satisfaction,
- to capitalisation on our feedback, in order to continue making progress,
- to the integration of our activities into the environment.

Philippe BARRE  
Chief Executive Officer

*The Quality, Health, Safety and Environment Department benefits from my unqualified support for its efforts to maintain rigorous application of the QHSE Management System. It is assisted in this task by the active involvement of all personnel.*

Conflans Sainte-Honorine, 30<sup>th</sup> March 2022
