

CTP environnement, 100 years of experience and innovation

A century of expertise in the service of industry

For 100 years, at CTP environnement, we have been serving industry with our experience, expertise, and capacity for innovation.

A century of commitment alongside industry businesses, forged in the field, at the core of the most challenging facilities.

Specialising in effluent treatment and industrial chemical cleaning, we have evolved around a firm commitment: to deliver reliable, high-performance, and sustainable solutions tailored to the realities of the industry.

Every project, every intervention, and every technological innovation has played a part in building an essential relationship with our clients and partners: that of trust.

Neutramex®: Online Cleaning on the Fire Side of Furnaces & boilers

Originally, the [cleaning process](#) used was effective but no longer met regulatory requirements.

In response to its customers' growing needs and to address their concerns regarding safety and the environment, CTP environnement mobilized its teams to develop, test and trial a new process: Neutramex® was born out of these developments, and its innovative formulation has stood the test of time.

The effectiveness of its agents in neutralising NOx (nitrogen oxides) and SOx (sulphur oxides) emissions upon injection has made it a key ally in meeting environmental standards for over 30 years.

Online fire side treatment of industrial furnaces

France's largest refinery asked CTP environnement to clean 4 furnaces within the site's cracking unit. Due to the use of fuel that causes clogging, these facilities require regular maintenance to recover design operating data. [...]

In addition to keeping the furnace in operation, ensuring a boost in production for the refinery, the online treatment performed by CTP environnement allowed the furnace's efficiency to be increased by between 2 and 4 %, depending on the section cleaned and the furnace's initial degree of clogging.

Behind the expertise, committed people

**Paulo
BARREIRA**

Field Project Manager
(30 years of experience)

Team Member of the Month

"I came to France on a six-month contract as a field worker, and I never left. The company has evolved, but its core values remain the same such as trust between employees and clients, and the passing on of expertise."

A century of commitment and innovation

100 years of industrial expertise serving the future

Over the decades, **CTP environnement** has continuously evolved its methods, integrated new technologies, and anticipated transformations within the sector while preserving what has been its strength for 100 years: recognised technical expertise, in-depth mastery of industrial processes, and the ability to design tailor-made solutions that meet the specific needs of each industry.

Present throughout France and beyond its borders, **CTP environnement** relies on a **national** and **international** organisation structured around its various subsidiaries. This scale enables the Group to support its clients wherever they operate, deploying reliable, high-performance solutions adapted to local requirements.

This centenary represents far more than an anniversary. It embodies 100 years of solutions, commitment, and innovation in the service of a more efficient, more responsible, and future-focused industry.

Today, as in the past, **CTP environnement** supports industry with the same ambition: to combine industrial performance, innovation, and environmental responsibility in order to meet the challenges of tomorrow.
