

# CTP environnement, 100 years of experience and innovation

## A century of expertise in the service of industry

For 100 years, at CTP environnement, we have been serving industry with our experience, expertise, and capacity for innovation.

A century of commitment alongside industry businesses, forged in the field, at the core of the most challenging facilities.

Specialising in effluent treatment and industrial chemical cleaning, we have evolved around a firm commitment: to deliver reliable, high-performance, and sustainable solutions tailored to the realities of the industry.

Every project, every intervention, and every technological innovation has played a part in building an essential relationship with our clients and partners: that of trust.

### **DECAMEX®: Restore the full performance of your air coolers and air condensers.**

Thanks to an innovative chemical cleaning process that can be carried out directly on equipment in operation, DECAMEX® removes deposits that degrade heat exchange and increase energy consumption.

Without production shutdown, without effluents, and without damaging equipment, this solution sustainably restores the performance of your industrial installations.

**Optimize the energy performance of your equipment.**

## Reference: Cleaning of an air cooler at a waste incineration plant

A site processing 600,000 tonnes of waste per year engaged CTP environnement UK to clean its air cooler condenser, consisting of twelve motors with an A-frame structure.

Previous cleanings had been carried out during shutdowns using a wet process. The results were inconsistent, with partial cleaning that left residual deposits within the tube bundles. [...]

The results show a significant improvement in the air condenser's performance (**over 20%**), despite less favorable conditions (increase in ambient temperature). After the cleaning, the air condenser operates closer to its original performance levels than after previous cleanings.

## Behind the expertise, committed people

**Carlos**

Field project manager (27 years of experience)

### Team Member of the Month

*"My first contract with CTP, during the summer, as well as my first NCI project, marked my beginnings in the field. I was supervised by my father a physically demanding experience, but extremely formative."*

## A century of commitment and innovation

### 100 years of industrial expertise serving the future

Over the decades, **CTP environnement** has continuously evolved its methods, integrated new technologies, and anticipated transformations within the sector while preserving what has been its strength for 100 years: recognised technical expertise, in-depth mastery of industrial processes, and the ability to design tailor-made solutions that meet the specific needs of each industry.

Present throughout France and beyond its borders, **CTP environnement** relies on a **national** and **international** organisation structured around its various subsidiaries. This scale enables the Group to support its clients wherever they operate, deploying reliable, high-performance solutions adapted to local requirements.

This centenary represents far more than an anniversary. It embodies 100 years of solutions, commitment, and innovation in the service of a more efficient, more responsible, and future-focused industry.

Today, as in the past, **CTP environnement** supports industry with the same ambition: to combine industrial performance, innovation, and environmental responsibility in order to meet the challenges of tomorrow.
