

## CTP environnement, 100 years of experience and innovation

### A century of expertise in the service of industry

For 100 years, at CTP environnement, we have been serving industry with our experience, expertise, and capacity for innovation.

A century of commitment alongside industry businesses, forged in the field, at the core of the most challenging facilities.

Specialising in effluent treatment and industrial chemical cleaning, we have evolved around a firm commitment: to deliver reliable, high-performance, and sustainable solutions tailored to the realities of the industry.

Every project, every intervention, and every technological innovation has played a part in building an essential relationship with our clients and partners: that of trust.

#### **ABRAMEX®: shot blast cleaning solution**

We offer a range of surface treatment services using compressed air blasting (non-silica abrasive blasting, plant-based blasting, corundum blasting and shot blasting).

The ABRAMEX® blasting process, the most recent product in our range, enables hot-side cleaning of thermal equipment and boilers whilst the plant is shut down and in a dry state.

**Optimize the energy performance of your equipment.**

## Reference: boiler cleaning solution

A major domestic waste incineration plant operator contacted CTP environnement in order to identify and customise dry cleaning solutions for 2 fired heater boiler units, each with a capacity of 50 T/hour. [...]

The specification was completely fulfilled and the client was 100 % satisfied in terms of adherence to commitments:

- Rapid readiness of the boiler for cleaning
- Not a single drop of water used in any of the boiler's component parts
- High-quality cleaning results while protecting facilities.

This is now a regular operation within the client's facilities on the basis of a schedule that is renewed every year.

## A century of commitment and innovation

### 100 years of industrial expertise serving the future

Over the decades, **CTP environnement** has continuously evolved its methods, integrated new technologies, and anticipated transformations within the sector while preserving what has been its strength for 100 years: recognised technical expertise, in-depth mastery of industrial processes, and the ability to design tailor-made solutions that meet the specific needs of each industry.

Present throughout France and beyond its borders, **CTP environnement** relies on a **national** and **international** organisation structured around its various subsidiaries. This scale enables the Group to support its clients wherever they operate, deploying reliable, high-performance solutions adapted to local requirements.

This centenary represents far more than an anniversary. It embodies 100 years of solutions, commitment, and innovation in the service of a more efficient, more responsible, and future-focused industry.

Today, as in the past, **CTP environnement** supports industry with the same ambition: to combine industrial performance, innovation, and environmental responsibility in order to meet the challenges of tomorrow.
