

CTP environnement, 100 years of experience and innovation

A century of expertise in the service of industry

For 100 years, at CTP environnement, we have been serving industry with our experience, expertise, and capacity for innovation.

A century of commitment alongside industry businesses, forged in the field, at the core of the most challenging facilities.

Specialising in effluent treatment and industrial chemical cleaning, we have evolved around a firm commitment: to deliver reliable, high-performance, and sustainable solutions tailored to the realities of the industry.

Every project, every intervention, and every technological innovation has played a part in building an essential relationship with our clients and partners: that of trust.

Water Treatment Using Mobile Units

We provide water treatment services using mobile units. We support you at every stage, from design to operation, to meet your needs as effectively as possible.

From straightforward rental with technical support to a complete turnkey service, our mobile units can be deployed rapidly and are safe, efficient, modular, automated and remotely managed.

Mobile Treatment Solution for Managing Rainwater at a Refinery

A hydrocarbon processing site in Southeast Asia experienced torrential rainfall during the monsoon season. A rainwater retention basin was used to manage the runoff both continuous and unpredictable and to prevent flooding and pollution in the surrounding area. [...]

The complete treatment solution implemented by CTP environment Asia Pacific made a positive contribution to improved effluent management while adapting to the site's physical constraints. The constructive collaboration between all stakeholders made this project a genuine success.

Behind the expertise, committed people

Lionel
Chief Executive Officer

Team Member of the Month

"I have never seen myself as a leader chosen in advance."

"If I chose to move forward, it was thanks to the trust placed in me, the support of the teams and the conviction that our company has tremendous potential."

"Today, I am proud to be able to write this new chapter with committed employees who are focused on the future."

A century of commitment and innovation

100 years of industrial expertise serving the future

Over the decades, CTP environnement has continuously evolved its methods, integrated new technologies, and anticipated transformations within the sector while preserving what has been its strength for 100 years: recognised technical expertise, in-depth mastery of industrial processes, and the ability to design tailor-made solutions that meet the specific needs of each industry.

Present throughout France and beyond its borders, CTP environnement relies on a national and international organisation structured around its various subsidiaries. This scale enables the Group to support its clients wherever they operate, deploying reliable, high-performance solutions adapted to local requirements.

This centenary represents far more than an anniversary. It embodies 100 years of solutions, commitment, and innovation in the service of a more efficient, more responsible, and future-focused industry.

Today, as in the past, CTP environnement supports industry with the same ambition: to combine industrial performance, innovation, and environmental responsibility in order to meet the challenges of tomorrow.
